

Position 1 — Senior Agronomist, Olive (Arbequina / Arbosana SHD) — 1 position

- 10+ years hands-on management of commercial, production-scale olive orchards (research-only backgrounds excluded).
- **Cultivar (non-negotiable):** MANDATORY: direct, demonstrable experience with Arbequina and Arbosana cultivars in Super-High-Density (SHD) hedgerow systems.
- **SHD mechanization:** MANDATORY: hands-on straddle-harvester experience, including canopy training and pruning to the harvester envelope and hedgerow vigor management.
- Proven expertise in arid-climate cultivation and saline soil/water management (leaching fractions, amendments, salinity monitoring).
- Strong command of drip irrigation and fertigation program design and execution based on soil/water lab analysis.
- Orchard establishment and young-tree development (SHD training from year one) strongly preferred.
- Working Arabic and English required; French an advantage. Degree in agronomy/horticulture.
